WOMAN'S CLUB.

Club days being Tuesdays, this was the favored day this week being Washington's birthday, and the program consisted of interesting papers and talks on the parts of George Washington and of George himself, by Messdames Hemenway, Rarey, Mother Thorne, Muzzy, and others.

The business meeting consumed most of the afternoon, the ladies of the club having cooperated with the merchants in regard to length of hours for the delivery boys, asking that their hours be shortened. The Woman's club suggests that the house wife get their orders in early enough so that the boys can start on their last run by 5:30 at least by 5:30 p. m., so that they may get their horses fed and housed and start home by six o'clock. This has been practiced for some time in most places and will be welcomed here in the near future, we hope.

The club will begin a fly campaign in the near future and they hope by commencing early that Carlsbad may be made a flyless town. This is one thing that every man, woman, and child should be anxious to help along.

The Woman's club will hold an all-day session at the club room Friday, to look after the linen and make quilts for the room they have at the Eddy County Hospital.

At the next meeting there will be an election of officers for the coming year and all members are urged to attend.

The new owners of the IP ranch at the point of the Guadalupe mountains former Governor W. R. Stubbs of Lawrence, Kansas and S. N. Lee of Kansas City, are here looking after their interests. Gov. Stubbs is much pleased with conditions on the ranch, returning from there this evening. Every thing is wintering well and there is plenty of grass. There has been little moisture recently, but there is still plenty of moisture in the ground for early grass. Messrs. Lee came in this evening. Though a college graduate, he is spending some time looking after ranch and has grown a fine manly physique since inaugurating real ranch life in the far west.—A. M. Howe.
